

**We believe in Blockchain**

**Innovative Software Solutions**

# Introduction to Our Software Company

Blockchain Solutions

Our software company offers cutting-edge technology solutions focused on Agriculture Industry. We have developed different products and services to help Food Producers, Farms, Retail, etc.

# Main Concepts

1

## Revolutionizing Agriculture Landscape

Innovative software solutions driving industry growth and efficiency.

2

## Empowering Businesses with Cutting-Edge Technology

Tailored software solutions designed for seamless integration and optimal performance.

3

## Future-Forward Approach

Embracing future trends to push boundaries and enhance user experiences significantly.

# Blockchain Benefits

4

## Food Tracking - Traceability

Enhanced Traceability and Accountability. Blockchain technology offers enhanced traceability and accountability across various industries and sectors.

5

## Food Origin - Transparency

Food producer public information. Public Data and public smart contacts.

6

## Food Data and Food Waste

Immutability simply means that transactions, once recorded on a blockchain, can't be changed or deleted.

# Products Developed

Web and Mobile App for  
offering food close to it's  
expiration date

Food Tracking with QR code

Agriculture ERP -  
Management System

# Proud Partner of European Blockchain Service Infrastructure

## Production Node Operator

We are EBSI Partner for Blockchain Nodes -  
Production and Pre-Production.

## Pilot Node Operator

We are EBSI Partner for Blockchain Nodes - Pilot and  
Dev Nodes

# Proud Provider of EBSI Wallet

## Individual Wallet

Request & present credentials  
Mobile and Web

## Issue Wallet
